Experience

Intellexia AI - Founding SDE

July 2025 - Present

Generative AI | FastAPI | NextJS | Docker | Git | System Design | GCP | LightGBM

- Designed and deployed a GenAI resume translation pipeline on GCP
- Dockerized Puppeteer automation by building a hybrid Python + Node environment, replacing legacy Playwright architecture **reducing its latency by 70%**
- Achieved **sMAPE under 10% in MCP Price Prediction Algorithm (LightGBM)** for a client in the energy sector.
- Leading development of a **Small Language Model (SLM)** focussed on translation tasks

PwC India- Delhi NCR - Data Analyst Intern

January 2025 – July 2025

Generative AI | Groq | Langchain | Streamlit | LLM | Automation | Git

- Automated the RFP Management System, an AI multi agentic workflow leveraging Gemini models to generate accurate excel reports, **reducing specialists' manual documentation time by 30%**
- Collaborated with cross functional teams (Bids, Management, Advisory , Legal) to understand their pain points and how they can be solved using GenAI

Centre For Railway Information Systems – New Delhi- Data Science Intern

May 2023 – Aug 2023

Deep Learning | Time Series Forecasting | LSTM | Statistical Modelling

- Preprocessed 2,00,000+ rows dataset using advanced data cleaning techniques to ensure data quality.
- Implemented a robust **LSTM model for demand forecasting of commodities** using time series data and evaluated model performance using **MAE and RMSE** to validate prediction reliability

Projects

Claim Verification System For Insolvency Resolution Professionals [Github](#)

GenAI | Flask | Git | System Design | GCP | HTML | CSS | JS | OCR | Rag | BM25 | Semantic Embeddings | FAISS

- Automated Claim Verification process by Integrating **Gemini's multimodal API** to analyze both digital and scanned PDFs or DOCX files, leveraging its vision and text-understanding capabilities for document intelligence

Data Analysis GenAI Excel Chatbot [Github](#)

Autogen | Crewai | Groq | Rag | Streamlit | Huggingface | Prompt Engineering

- Built an Excel-integrated GenAI chatbot that **reduced exploratory data analysis effort by ~10%**, minimizing reliance on pivot tables and manual slicing.

E-Commerce Sentiment Analysis - [Github](#)

Python | Machine Learning | NLP | Data Analysis | Flask | Docker | Streamlit | Google Colab

- Performed web-scraping to collect user reviews data from Amazon India and developed a **Support Vector Machine (SVM) model, achieving 93% overall accuracy**

Skills

Programming: Python, Java, SQL, C++, HTML, CSS, Javascript

Frameworks & Libraries: NumPy, TensorFlow, Keras, Scikit-learn, Flask, Streamlit, FastAPI

GenAI & ML Tools: Langchain, Crewai, PydanticAI, Autogen, RAG, Groq, Gemini, Ollama, Llama.cpp

Education

BML Munjal University

Cgpa- 6.99

Bachelor of Technology in Computer Science Engineering
